RESUME

Hi there!

I'm Cătălin Șandru, a UI/UX designer with over 12 years of experience. I create practical, user-friendly solutions infused with a touch of creative.

How I Can Help?

I help teams identify business opportunities and collaborate with stakeholders to develop effective solutions. From user research and design strategy to UI/UX design and testing, I streamline projects to deliver products to market efficiently across both web and mobile apps.

Summary

My approach to design is all about collaboration. I believe the best ideas come to life when people share perspectives openly and build on each other's creativity. As a hands-on creator, I'm passionate about transforming ideas into tangible experiences through, interaction, art direction, and code.

Over the years, I've had the privilege of working with some amazing clients, including Visma, Deloitte, Allianz-Tiriac, Printec, Docler Holding Carpatica Comercial Bank.
